

bmi

e-ticket on Sabre

routes offering bmi e-ticket

Before making an e-ticket reservation always look for an e-indicator in the availability display. This will give you the most up to date information on the routes that bmi offer e-ticket. A full list is also available from flybmi.com/trade bmi e-ticket is only available on bmi operated services.

general booking information

- bmi e-ticket can be issued on all types of fare (the only current exception being routepass)
- only flights displaying /E indicators may be issued as e-ticket
- there are a maximum of nine passengers per PNR
- a maximum of four sectors can be included per PNR
- bmi e-ticket can be issued on PNRs containing open sectors
- name changes are not allowed after a bmi e-ticket has been issued
- e-tickets can be issued for infants
- unaccompanied minors may travel on an e-ticket
- bmi e-ticket is available for sale in the UK, Ireland, France, Netherlands, Italy, Germany, Belgium, Canada and the USA
- the e-ticket record can be accessed for 60 days after the last air segment is flown or for open or unused tickets any time after the first intended flight date
- No FOID required.

procedures

booking procedure

- create booking and quote fare in the normal way
- enter the passenger's frequent flyer number (FQTV) if applicable
- to issue an e-ticket enter †ETR to the normal ticketing instruction

how to display an e-ticket record

- by ticket number WETR*T{e-kt number} or WETR*{line number of TE item in *T field of PNR}

revalidation

If changes are made to the booking, these must also be made in the e-ticket record as follows. Failure to do so can result in delays for the passenger at check in.

- make the changes in the booking, then end and retrieve PNR
- display appropriate e-ticket record
- enter revalidation request WETRL/S{segment number from PNR}C{coupon number from e-ticket record}

notes on revalidation

- If multiple sectors need to be revalidated, these must be done one at a time.
- The PNR will not be updated with an indicator to show that a reval has taken place. All information regarding the reval will be held in the e-ticket record.

reissues

- make changes in booking as you would normally if preparing to reissue
- display the bmi e-ticket record
- Usual exchange ticketing formats apply with the addition of †ETR to make the exchange to an electronic ticket

refunds

- display the bmi e-ticket record
- to request the refund mask enter WETRR{line number showing TE from *T field of PNR} then complete refund mask as usual

For e-ticket refunds the status of the e-ticket record is checked and can only be completed if the status is OPEN or EXCH.

voiding

WV{line number of TE item from *T field of PNR}

e-tickets can only be voided within the current BSP reporting period.
